

Central Wyoming Groundwater Guardian Team

Minutes of Meeting September 9, 2019

Chairman Floyd Field called the meeting to order at 12:15 pm.

Members Present: Floyd Field, Bruce Pedersen, Brian Schroeder with Regional Water, and Margaret Teevens. No guests were present.

Bruce made a motion to accept minutes of the July 25, 2019 meeting as amended to indicate the unanimous vote to appoint Floyd Field as President. It was agreed that this would be a lifetime appointment. Brian seconded. Motion passed.

Floyd reported that we had one bad testing location in Dempsey Acres and that the retest also failed. The next testing of 10 sites in Dempsey Acres is scheduled for January.

Re-coating of the yard tank – a team from New Mexico will be working on re-coating weather permitting. The roof structure is 50% gone so now a new roof is needed before the tank can be painted. Regional Water is working on options for the tank. The new roof on the Wardwell tank is nearing completion and the tank should be in service next week. Tower tank painting is done. The tank was used this summer but is currently out of service.

The plant is currently running at 14 MGD. The hydrogen peroxide system is scheduled to be up and running this year. Scada system under construction and the systems will run in parallel until the new system comes fully online.

Hydrant flushing of Pioneer is complete.

Mike/Brian will contact Casper College to get an update on the GIS/Natrona County Health Department septic system mapping project.

The next meeting will be December 5, 2019.

Motion to adjourn by Bruce, 2nd by Brian. Meeting adjourned.

Respectfully,
Margaret A Teevens
Secretary Groundwater Guardians
